

### 1277 Seamless

Base Nylon + Fiber  
Foam Light Foam  
Rail Steel / Chromoly / Stainless Steel / Carbon  
Feature Seamless / New Twin Foil  
Size 247 x 145 mm

### 1288 Seamless

Size 240 x 131 mm

### 1276 Seamless

Base Nylon + Fiber  
Foam Light Foam  
Rail Steel / Chromoly / Stainless Steel / Carbon  
Feature Seamless / Twin Foil  
Size 250 x 137 mm

### 1289 Seamless

Size 245 x 145 mm

### 1290 Seamless

Size 255 x 155 mm

### 1311 Seamless

Size 245 x 145 mm

### 1313 Seamless

Size 255 x 155 mm

#### IN DEPTH:

Three design elements improve the ride experience. 1. The shortened length put the rider in the sweet spot. 2. Nylon blended shell offers maximum compliance & supportive. 3. Flex rail technology gives the rider most supple and vibration free ride possible.

#### IN DEPTH:

The shorter nose size and best vibration damping technologies including our proprietary Nylon blend base which incorporates a flex rail connection and our twin foil rear mount which helps the saddle to conform to and provide dynamic feedback for the bodies movement.

### 1301 Vacuum

Size 260 x 150 mm

### 1410 Vacuum

Size 267 x 155 mm

### 1402 Vacuum

Size 267 x 145 mm

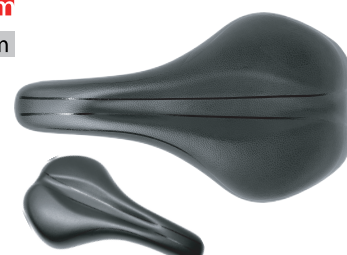

### 1400 Vacuum

Size 267 x 145 mm

### 1477 Vacuum

Size 260 x 145 mm

### 1340 Vacuum

Size 267 x 145 mm
